**\$17.60**

## TGC Nitrile Grey 400mm\*

TGC WorkGear™ Grey 400mm – Xtra Long beaded cuffs extend to the user's upper forearm for superior protection of the hand and lower arm.

TGC WorkGear Grey 400mm Box of 40

**\$44.75**

The Nitrile material has been specifically formulated to deliver a lighter glove with enhanced strength and durability. iSense Microlite disposable gloves are significantly ahead of traditional latex and vinyl gloves, offering unmatched strength and comfort at an affordable price. The soft nitrile material is gentle on the skin minimising the risk of allergic reaction enabling putting the gloves on easy and smooth without tearing.

## Blue Heat - Non Disposable Gloves

Lightweight heat tested glove is the solution for heat affected items up to 150C.

Made from comfortable, cool cotton and void filled coated dipped latex to produce a super wrinkle finish that minimises the contact surface area of the glove on high temperature items. **Blue Heat - 1 Pair**

**\$8.50**

## Chloronite - 24 Pack

No more big heavy chemical gloves, you now can use a lightweight glove with high levels of dexterity with a vast range of hazardous chemicals.

A world leading solution for chemical protection in hand safety.

**24 Pack**

**\$96.95**

**Per Pair**

**\$9.95**

**Ideal for:**

- Damaging Solvents • Volatile Fuels • All Oils
- Corrosive Acids • Burning Alkali • Hazardous Chemicals

**EQP-016** Ignition Quick Probe – Coil Over Plug – KV and ARC Tester with Variable Sensitivity  
The fastest way to verify the firing of a Coil Over Plug ignition coil and spark plug.

**\$165**

**178mm (7" inch)**  
**Signal Receiver Probe.**

Eliminates the need for back probing coil wires  
Eliminates the need for disassembly to test at the ignition coil or spark plug  
Variable sensitivity for greater diagnostic accuracy & expanded application coverage  
Allows the technician to determine if the coil is firing the spark consistently, intermittently misfiring or not firing at all.  
Testing for both the KV and arc (Glow) duration output to ensure the coil over plug is actually firing the spark plug

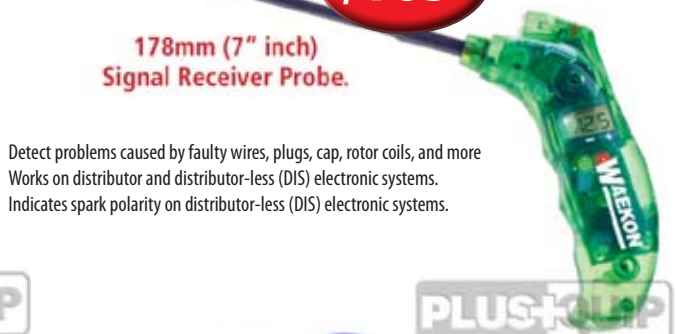

**EQP-017** The fastest way to measure and compare peak kV, or verify the firing of the secondary ignition system.

Super bright LED strobe allows the technician to determine if the secondary ignition is firing consistently, intermittently misfiring or not firing at all.

Detect problems caused by faulty wires, plugs, cap, rotor coils, and more  
Works on distributor and distributor-less (DIS) electronic systems.  
Indicates spark polarity on distributor-less (DIS) electronic systems.

**\$165**

**178mm (7" inch)**  
**Signal Receiver Probe.**
